2020 Run Surrey Run and COVID-19 Update

Balsar Community Foundation the organisers of the 2020 Run Surrey Run have decided to postpone the run until 2021. The Foundation has decided to act with social responsibility based on the increased spread of COVID-19 and following the recent order from the British Columbia Provincial Health Officer to ban all public gatherings that exceed 50 people.

Our highest priority has, and always will be, to promote and safeguard the health of participants, volunteers, attendees, key personnel, staff and in general the public at large. The postponement was a very difficult one and we share the disappointment alongside those that have keenly expressed joy to see the run materialize in Surrey. However, our commitment to the health and welfare of all was our primary guiding principle and hence the decision to postpone the event to a later date.

Thank you for your understanding during this difficult time which is being faced globally. We encourage everyone to follow the Provincial and Federal health directives and to stay safe and healthy. We know that Run Surrey Run will be bigger and better next year and look forward to having you join us. We look forward to updating you about Run Surrey Run 2021.

Until then, be sure to stay safe and healthy.

Gurjinder K. Bhurji
Run Surrey Run, Chair
